Please do spend some time and go through this information carefully so that you do not miss out on any opportunity that NMIMS may have to offer you. The SRB contains a Student Undertaking page at the end of the document, which you are required to sign and submit to your course coordinator by the suggested date.

We would also like your support to maintain and enhance the University's image and uphold its values. We value your feedback.

15.1 Mentoring Programme:

Students (as applicable school wise) have been assigned faculty mentors whose role is to help assimilate the NMIMS culture, facilitate intelligent choice making regarding selection of courses, and help identify resources needed by all students. Do meet your faculty mentor regularly as per their convenience and availability.

15.2 Psychologist and a Counsellor:

A counsellor is a non-judgmental friend who understands, ensures privacy and confidentiality and counsels you by giving choices so that you make the right decision. Counselling is a realistic, structured, and research-based therapy. Managing emotions is vital to ensure all-rounded progress in life. We need to break the old walls of myths and misconceptions to learn something new. Visiting a counsellor helps us to relearn more helpful, progressive, reality-based thinking.

Personal counselling is essential at every step in life, even at the corporate level. What we think about situations affects our subconscious mind and interferes with our present-day life.

As normal human beings at any given time in life, we could go through challenging times and have no one to share or guide us. We often do not share our issues with family or friends due to the fear of upsetting them. We worry that perhaps they may not understand or could become judgmental. At such times, we recommend Personal Counselling.

- i. "I cannot concentrate or focus nor can I sleep, at times, I get so scared that I go blank in my exams!"
- ii. "Since the time he left me, I cannot put my attention to anything I will not be able to live anymore.....can't bear it if she is not in my life!"
- iii. "I have lost my confidence I feel worthless /hopeless; no one loves me. I don't want to live anymore"
- iv. "I feel nobody understands what I am going through..." (People become judgemental instead of understanding and supporting)
- v. "I do not know whom to share my feelings with? Where do I seek help? Who will be able to help me?"

Have you had any of these repetitive thoughts or faced a rejection that you cannot cope with?

Have you reacted very angrily first and then later realised that reacting to the event was not needed and in the process, you harmed the relations you had with your friends and family? Do you not know what went wrong then? Do you not understand what triggered you?

Just as we would treat a sprain with some ointment, we try to heal our emotional pain independently. When the sprain is not healing, we visit the doctor, and similarly, one sees the counsellor sometimes when we are unable to clear our emotional challenges. The counsellor needs to check how deep your wound is, and usually, you are helped by putting a first aid protection (counseling) through therapeutic counseling. Sometimes the injury may have been too deep /chronic, or your trauma could also need psychiatric intervention and give appropriate help.

We may be unaware of our behaviour's implications on others, but it eventually could affect our relations in daily life at home, in class, or at work. When the past emotional situations are not dealt with therapeutically, we could develop unhealthy negative thoughts and feelings that we need to be aware of. They could again lead to complications and affect our performance, decision making, logical thinking, studies, relationships and career. This continued stress can gradually affect our body and physiological health causing hypertension, respiratory ailments, gastrointestinal disturbances, migraine and tension headaches, pelvic pain, impotence, frigidity, dermatitis and ulcers.

The biggest myth is that being emotional is to be weak, so often, we push all our emotional issues under the blanket and then take up unhealthy habits like smoking, drinking, and substance abuse to avoid sleepless nights. We hope to feel better, which lasts only for short term. On the other hand, creating long term damage may lead to unhealthy dependency.

NMIMS wants to ensure holistic development of the students. Therefore have appointed a team of psychologists and a counsellor.

21. Safety Guide for Students on Floods, Fire and Earthquakes

NMIMS gives utmost importance to safety of its students. It prepares students for natural hazards.

The safety measures for some natural disasters such as 1) Floods, 2) Earthquakes and 3) Fire are highlighted briefly.

21.1 Floods: Precautions to be taken in case of Floods are given in Table 1 below.

Before Floods	During Floods	After Floods
<ul style="list-style-type: none"> Identify and visit elevated areas in and around the Institute as places of refuge during a flood Be aware of drainage channels, and other low-lying areas known to flood suddenly. Consult and involve local authorities in the institutes Check out for the monsoon alerts for the heavy rains declared by the Municipal Corporation Do not travel long distances on dates indicated as 'Monsoon Alerts'. Contact the Institute if there is any pre planned activity or examination or any other important work on that day and try to adjust it on some other day Keep locally available equipment such as ropes, battery, radio, plastic bottles and cans handy during rainy season. This can help you to plan your rescue Prepare a food kit including emergency food items such as biscuits, snacks, drinking water and so on 	<ul style="list-style-type: none"> Evacuate to previously identified elevated areas Your life is most precious Avoid to save valuables at that moment. Disconnect electrical appliances. Turn off utilities at the main switches of valves if instructed to do so Don't touch electrical equipment if you are wet or standing in water Do not walk through moving water. Six inches of moving water can make you fall If you have to walk in water, walk where the water is not moving Use a stick to check the firmness of the ground in front of you Avoid floodwaters; water may be contaminated by oil, gasoline, or raw sewage Water may also be electrically charged from underground or downed power lines Listen to the radio for advance information and advice. Don't spread rumors Move vehicles to the highest ground nearby Do not enter floodwaters by foot if you can avoid it Never wander around a flooded area Drink clean water 	<ul style="list-style-type: none"> Stay away from downed power lines, and report them to Security Officer Leave the Institute / home only when authorities indicate it is safe Stay out of any building if it is surrounded by floodwaters Use extreme caution when entering buildings; there may be hidden damage, particularly in foundations Floors in the building will be slippery due to water and mud. Walk carefully on the slippery floor. Wear appropriate footwear. Do not use slippers during rainy season Watch out for loose flooring, holes and dislodged nails Clean and disinfect everything that got wet Discard any food items which may have got wet Inform about the damaged drainage and sewage systems in and around the building to the authorities as soon as possible. These can be a major health hazard First protect yourself and then help others.

21.2 Earthquake: Precautions to be taken in case of earthquakes are displayed in Table 2 below:

Before Earthquake	During Earthquake	After Earthquake
<ul style="list-style-type: none"> In hostel or at home keep heavy objects on lower shelves so they will not fall on you during an earthquake. Make sure your water heater and gas cylinder is secured and intact. This will ensure that it will not fall during an earthquake and hurt someone or start a fire. Keep a torch and a mobile handy. Keep the corridors in the hostel/house clear of furniture and other things, making movement easier. 	<p>If you are at home or inside a building</p> <ul style="list-style-type: none"> Do not rush to the doors or exits; never use the lifts; keep well away from windows, mirrors, chimneys and furniture. Protect yourself by staying under the lintel of an inner door, in the corner of a room, under a table or even under a bed. <p>If you are in the street</p> <ul style="list-style-type: none"> Walk towards an open place in a calm and composed manner. Do not run and do not wander round the streets. Keep away from buildings, especially old, tall or detached buildings, electricity wires, slopes and walls, which are liable to collapse. 	<p>If you are at home or inside a building</p> <ul style="list-style-type: none"> Expect aftershocks. Be prepared. Stay where you are and do not come out immediately. Keep calm obey any instructions you hear after you come out Turn off the water, gas and electricity Do not smoke and do not light matches or use a cigarette lighter. Do not turn on switches. There may be gas leaks or short-circuits. If there is a fire, try to put it out. If you cannot, call the fire brigade. Immediately clean up any inflammable products that may have spilled (alcohol, paint etc.). Avoid places where there are loose electric wires and do not touch any metal object in contact with them. Do not drink water from open containers without having examined it and filtered it through a sieve, a filter or an ordinary clean cloth. Eat something. You will feel better and more capable of helping others. If the building is badly damaged, you will have to leave it. Collect water containers, food, and ordinary and

Keep clear of the streets to enable rescue vehicles to pass. • Keep away from beaches and low banks of rivers. Huge waves may sweep in. • Keep updating yourself with latest information on earthquake through radio or T. V.

21.3 Fire: Precautions to be taken in case of fire are given in the Table 3 below:

Before Fire	During Fire	After Fire
<ul style="list-style-type: none"> • Identify the fire hazards and where fires might start, e.g. laboratories, storeroom, kitchen and other such places. • Identify all the exit routes of the Institute. • Check the adequacy of firefighting apparatus and its maintenance. 	<ul style="list-style-type: none"> • Do not panic. Shout loudly for help. • Do not run. • Do not waste time in collecting valuables. • Inform the fire brigade about the fire and alert neighbors. • If possible, use fire extinguisher. • Do not take shelter in toilet. • Shut all the doors behind you while leaving the room to prevent fire from spreading everywhere. • Do not use the lift to escape. • Use nearest means of escape and the staircase available. • Make exit to ground level instead of the terrace. • Report about your safe escape and any other information to the University authorities, fire brigade or police present at the site. <p>If trapped or stranded:</p> <ul style="list-style-type: none"> • Stay close to the floor level. • Cover the gaps of the door by any piece of cloth available. • Do not jump out of the building. • Signal or shout for help. • Stop, drop and roll on the ground and cover with blanket; pour water on the body • Dial 101 or 22620 5301 for fire brigade • Give the fire officer detailed address, nature of the incident and the telephone number from which you are calling. Preferably, use landline. Keep down the receiver and wait at the same spot. Control Room will call back to verify the call. • Wait for the Fire Brigade to arrive and co-operate with the firefighters. 	<ul style="list-style-type: none"> • Don't re-enter or permit anyone to enter the building, unless the fire officials have given permission to enter.

Message from Dean

The Balwant Sheth School of Architecture was founded under the gigantic umbrella NMIMS University, to create professionals with sensitive and creative minds and with the ability to make a difference and be the catalysts for the positive change in the field of Architecture. In this process, the NMIMS University has lent a robust support and resources to the institute by creating state-of-the-art- infrastructure, by appointing best faculty members, and by providing immaculate examination and administrative systems.

In the formative years of Bachelor of Architecture programme, through variety of hands-on exercises under 'Foundation Workshop' our students develop strong sense of intuitive creative processes of their own. In the later years they are introduced to world of multidisciplinary knowledge ranging from cultural studies, visual studies, social sciences, sustainable design, advanced construction technology and digital design, as important tools for imagining holistic designs. All in all, the students are sensitised to various aspects of natural as well as human-centric systems and designs.

In the recent years, the school has also been exploring advanced tools of digital fabrication and material explorations and now in the process of setting up a state-of-the art Fabrication lab in the coming year. Our newly launched Masters programme in Advanced Architecture has aspired to take a long leap into integrating Digital tools into data analysis, designing, fabrication and prototyping. Leading Experts from the field of Urban planning, Structural Engineering, Humanities, Environmental sustainability and Digital computation & fabrication have been brought together to nourish the thinking and the processes.

The B.A.(Hons.) Interior Environment and Design degree programme, looks at the built environment from inside out while taking into account the environment as in nature & sustainability. The spirit of foundation programme in formative stages of B.A. also remains hands-on and about developing intuitive design responses among students and in later stages engages with multidisciplinary design practices to create design who are multifaceted.

The institute would thus continue to evolve by challenging the set norms about building practices and transcend the boundaries set by itself from time to time and train our students to imagine a better world, dream about the future, investigate into the history & the place, observe the present and engage with the context with a deep sense of responsibility.

Kaiwan Mehta (Dr.)

2. Placement Guidelines (wherever applicable):

NMIMS is a premier University of the country and the B-school is in existence for over four decades. Over the years it has earned recognition from industry & professional associations, corporates, peer group institutions and accreditation agencies. All these laurels and recognitions would have been incomplete without the support of the corporate world. Our alumni occupy senior positions in leading companies across sectors.

NMIMS is also a great place to recruit potential young managers and business leaders. Leading companies across sectors consider our students for recruitments/ internships. As we have cordial relations with the corporate world, many companies have supported us even during tough times. We would like to continue this mutually symbiotic relationship. Hence, it is expected that students understand this sentiment and behave responsibly at all times. Any untoward incident will jeopardize this association and have serious repercussions for placements and for the future.

The corporate world expects students to display high standards of professional knowledge, capability and excellence. Recruiters also look for candidates who are clear about their long-term plans, the sector they want to be and profile they want to undertake.

Placement assistance is offered to students of various programs across Schools & Campuses. The Placement Office facilitates the process of placements – internship & recruitment by creating an interface between recruiters and students. Efforts are made to market the programs with their merits with an endeavour to get companies to offer internships/recruit students. The selection process specified by the company is followed. The PlaceCom - Placement Committee of students is actively involved in the placement activities – contacting/visiting companies located in metros & major cities for placement presentations and also coordinate various activities during the placement processes.

The Placement Office devises placement guidelines that are in the larger interest of the School and students, in consultation with students and faculty.

Students are expected to maintain decorum and abide by the guidelines during placement processes. In the event of non-conformance to the placement guidelines, the School reserves the right to initiate corrective action.

The COVID 19 pandemic has had far-reaching consequences leading to an altogether new world of working for all leading to WFH, virtual internships and virtual selection process.

The Placement process typically involves –

- Batch Preparation
- Pre Placement Talks
- Internships/Projects
- Final Placements

2.1 Batch Preparation:

The Comprehensive Batch Preparation Program is to enhance the suitability of candidates and orient them to industry practices and expectations.

- a. Interactive sessions with alumni/industry experts in various profiles that help students to gain clarity on role/fit, understanding expectations of the company, future prospects - career evolution, right approach for cracking interviews, listen to first-hand experience & get a feel of life in a particular profile etc.
- b. Interaction with seniors who have undergone internships in companies.
- c. Assigning seniors or alumni as mentors to guide students.
- d. Mock interviews with alumni/corporates to get a direct feedback from people in relevant industries.
- e. Guest talks and workshops on various topics from corporates.
- f. Resume building as per guidelines
- g. Soft skills training etc.

- 2.1.1 Prior to the commencement of the selection process it is expected that students should be having a fair idea about their interest, sector and specialization or at least have some long term vision of where they want to be and should direct their efforts accordingly. A bit of clarity will help students land a good internship/job.
- 2.1.2 Hence, students should do a thorough research about the company, the business, the sector, other players in the sector; the financials etc. and be prepared with a background and fact file prior to the process. Also some additional information – the number of interns/recruits in the past, whether the company has a PPO policy, the roles offered, the experience of seniors who interned with the company etc. will be of help.
- 2.1.3 The Placement Office also involves companies in a number of Campus Engagement activities – contests, projects, workshops, seminars, guest talks etc. that would benefit a larger number of students and also help in promoting the excellent quality of the batch.
- 2.1.4 Based on the guidelines, students will have to prepare their resume that would encapsulate info about academics, work experience, internship, co-curricular activities, extracurricular activities, projects, awards, achievements, hobbies etc.

2.2 **Pre-Placement Talk – PPT**

PPT's are a medium wherein the company officials disseminate information regarding the company, the profile, the compensation etc. and clarify the queries of students. The company officials invest time and effort to disseminate info and the interactive session will make them feel visiting our campus was worth it. Hence students are requested to participate and ask relevant questions.

2.3 **Internships/Projects**

- 2.3.2 The Placement Office makes all efforts to reach out for internships across varied sectors, companies and profiles. Based on ones' interests and capabilities one should seek internships. Choosing the correct company for internships and performing up to the mark is of utmost importance.
- 2.3.3 The Internships are not only a window to the corporate world but also a relationship-building tool for NMIMS. It allows the companies to have a look at the talent at NMIMS, thereby strengthening Final Placements.
- 2.3.4 Internships are an integral part of the curriculum for securing the degree. It is a great learning platform for our students and goes a long way in shaping the learning obtained in the classroom. This experience is of immense use to students to enable them to acclimatize themselves to the intricacies of the corporate world.
- 2.3.5 The project is expected to build on the theoretical learning with practical experience and help students to identify the gaps in their learning, which they can attempt to fill in. They could also discover areas of interest and future career options.
- 2.3.6 Interactions during the internships both with other interns as well as employees help students to understand the expectations/needs of the organisation, the sector in general, to identify the gaps in their learning and in orienting oneself towards the sector and developing the required skill sets to emerge as the most suitable candidate.
- 2.3.7 Internships also hold a special significance as it is an apt mechanism for companies to spot bright talent early. Many companies have structured internship process which is used as a 'testing ground' to gain a direct understanding of the skill and ability of students leading to declaration of PPO's/PPI's. NMIMS too encourages candidates to work towards such offers that are based on internship performance.
- 2.3.8 Pre Placement Offer (PPO) is an Offer by the company to the intern acknowledging the excellent work done during the internship. Pre Placement Interview (PPI) is an opportunity by the company for the intern to be directly selected for the interview for final placements. Thus, the students should be careful in applying to the companies of their choice and should put in all efforts to convert the internship into an Offer. Thus, the seriousness of this cannot be overstated.
- 2.3.9 While feedback from the company is sought, the internship is also evaluated by School that could involve faculty guide monitoring the performance; periodic report submissions, evaluations, Viva Voce etc.

2.4 Final Placements

- 2.4.2** Leading companies across sectors aspire to recruit students of NMIMS. Each company has its own set of characteristics or qualities that they look for in a candidate. Hence, the company devises the eligibility criteria and selection process accordingly.
- 2.4.3** The process of selection starts with inviting applications based on the eligibility, profile, project, stipend/compensation details shared by the company. The applications of applicants are then sent to companies. Students are required to check their emails/Placement Portal/Student Portal, etc. regularly for information updates.
- 2.4.4** Every effort will be made to facilitate the placement process. However, it is the effort of the student that gets him/her selected for the job. Not getting selected for internships or during final placements in the first few companies should not lead to panic. Students are advised not to switch profiles in anxiety or haste.
- 2.4.5** Companies could have one or multiple rounds for selection – case analysis, group discussion, group exercises, interviews etc. Reasons like location, family issues etc. should not be constraints to students. They are expected to be mobile and have the capability to adjust and adapt and respond to emergent situations successfully.
- 2.4.6** Students who wish to drop out of the placement process are expected to formally notify the Placement Office vide the ‘Opted Out Form’ mentioning the reason, which could be higher studies, entrepreneurship, family business, seeking placements on their own giving with the names of such companies and details. The reason being, to iron out any hitches that may crop up later as the Placement Office approaches many companies and would like to continue the cordial relationship with them. Each of the Schools will be sharing to the batch, guidelines related to Resume, PPT, Internships, PPO’s/PPI’s, Final Placements etc. and it is expected that students follow the same. The School reserves the right to change, modify the guidelines in the best interest of the batch. Students are free to approach the Placement Office for any queries or guidance.

3 Guidelines for International Student Exchange Program(Wherever applicable)

3.1 Introduction

NMIMS Deemed-to-be-University has developed an extensive International Students Exchange Program in order to provide a cross cultural exposure and a global perspective to the students apart from classroom teaching. This is managed by Department of International Linkages of the University. The Exchange Program has become increasingly popular with the students and every year students get a chance to spend Semester/Trimesters at a partner Institute. With the dedicated efforts of the International Linkages department, efforts are ongoing to have larger number of students to avail of this unique opportunity in every school. Students at NMIMS also benefit from interacting with overseas students who visit us as part of NMIMS Inbound exchange program and International Immersions.

3.2 Preamble

In a world that is increasingly interdependent, it is imperative for the NMIMS Deemed-to-be-University to have an internationalization agenda. 4. Examination Guidelines regarding passing Bachelor of Architecture *, Master of Architecture and B.A. (Honours) Interior Environment and Design from Balwant Sheth School of Architecture (Internal Continuous Assessment / Term End Examination, Passing Criteria, Grading system, method of calculation of CGPA, Re-Examination, exceptional cases – medical etc.)

In continuation to the Examination Guidelines explained at Sl. No. 7.0 in Part I of this SRB:

*** The SRB reflects the adoption of COA Minimum Standards of Architectural Education, 2020**

Passing Criteria: (General)

A student who has passed in all the subjects (as per the criteria laid down herein under) of Semester I and Semester II examinations of the first year of the programme will be promoted to the second year of the concerned programme. Likewise, a student who has passed in all the subjects of Semester III and Semester IV examinations of the second year will be promoted to the third year of the concerned programme and so on.

A student who fails to pass in one or more subjects in Semester I he/she is required to appear for re-examination/s in those subjects immediately after the declaration of the results of each term end examination. The internal marks will be carried forward for the re-examination. A student has to submit an online re-examination form. Such students who fail to submit the form will not be allowed to appear for the re-examination. A student who has failed to fulfil the passing criteria of Semester I courses after re-examination, will need to seek readmission for the entire year in the next academic year and re-do all the courses that is both ICA and TEE.

Students who remain absent for re-examination will be treated as failed in that subject in which they have remained absent and hence they will have to take readmission for the entire year in the next academic year and re-do all the courses that is both ICA and TEE

The student shall be required to apply and pay the prescribed fees/charges for each subject of the re-examination before the commencement of the re-examination failing which the students will not be allowed to appear at the re-examination.

The same criteria regarding re-examinations as mentioned above shall be applied to Semester I and II of the First Year, Semester III and IV of the second year, Semester V and VI of the third year, Semester VII and VIII of the fourth year and Semester IX and X of the fifth year of the programme and also for admission to the first, second, third, fourth and fifth year of the programme.

Passing Criteria: (For each Subject)

Internal Continuous Assessment (ICA):

A student must secure in every subject a minimum of 45% of the total maximum marks allotted to the internal continuous assessment of each subject, in order to be declared as successful in every subject, of each of the semesters.

Semester-End Examination (SEE):

A student must secure in every subject a minimum of 45% of the total maximum marks allotted to the semester-end examination of each subject, in order to be declared as successful in every subject, of each of the semesters. In addition to the above passing criteria for each subject, a student should fulfill the following passing criterion also to be declared as having passed the semester concerned. A student must secure a minimum of 50% of aggregate marks out of the total marks for each semester.

In case a subject has evaluation component of only Semester End Examination or Internal Continuous Assessment, then in such case, the passing for such a subject shall be 45% of the total marks allocated to that subject. If a student fails to pass in any of such subjects she/he will have to appear for re-examination (in case of semester-end examination) which will be conducted immediately after the declaration of the results of each term end examination.

Non-fulfillment of Passing Criteria:

Applicable for the subjects which do not have written examination:

If a student gets less than the prescribed 45% marks allotted to the internal continuous assessment in a particular subject, such a student will be declared 'failed' in that subject in that academic year and therefore, will have to seek readmission for the entire year in the next academic year and re-do all the courses of ICA.

In case a student obtains at least 45% marks of the total marks allotted to the internal continuous assessment in a subject in the Internal Continuous Assessment, but fails to obtain minimum prescribed marks (i.e. 45%) in the Semester-end examination of that subject or fails to obtain at least 45% marks out of aggregate marks for the subject, then in both such circumstances, he/she will be required to appear at the re-examination which will be held immediately after the declaration of the results of each term end examination and in such case his/her marks in internal continuous assessment will be carried forward and shall be added to the marks obtained by him/her at the re-examination in that subject. If a student fails in the re-examination he/she shall be deemed to have failed in that subject and would be required to seek readmission for the entire year in the next academic year and re-do all the courses that is both ICA and TEE.

In case, the student fails even in the re-examination, which is so held, he/ she will have an option to seek readmission for the entire year in the next academic year and re-do all the courses, that is both ICA and TEE.

Applicable for subjects which have written examination:

If a student gets less than the prescribed 45% marks allotted to the internal continuous assessment in a particular subject, such a student will be given only one and final chance to improve his/ her performance to secure the necessary prescribed minimum marks in the Internal Continuous Assessment (ICA) by way of re-doing all the required projects/ assignments, etc. for the said subject of that Semester as decided by the respective subject-teacher/s, before the given Semester-end examination of that semester. The modalities of the Internal Continuous Assessment shall be jointly decided by the subject teacher and the Dean/ In-charge of the School. It is the sole responsibility of the student to comply with the above mentioned requirement before the end of each respective Semester. If he /she fails to do so, he/she shall be declared failed in that subject in that academic year and therefore, will have to seek readmission in that year or quit the programme. A failure in the Internal Continuous Assessment after the said chance for improvement in the internal continuous assessment will imply that the student/s will not be allowed to keep terms in the next Semester, and will be required to seek re-admission in the next academic year for the same year of the programme concerned.

In case a student obtains at least 45% marks of the total marks allotted to the internal continuous assessment in a subject in the Internal Continuous Assessment, but fails to obtain minimum prescribed marks (i.e. 45%) in the Semester-end examination of that subject or fails to obtain at least 45% marks out of aggregate marks for the subject, then in both such circumstances, he will be required to appear at the re-examination which will be held immediately after the declaration of the results of each term end examination and in such case his/her marks in the Internal Continuous Assessment will be carried forward and shall be added to the marks obtained by him/her at the re-examination in that subject.

In case a student fails to obtain a minimum of 50% of aggregate marks out of the total marks for each semester as stated above, then in such circumstances, he/ she will be required to appear at the re-examination of all the subjects which will be held immediately after the declaration of the results of each term end examination and in such case his/her marks in the Internal Continuous Assessment will be carried forward and shall be added to the marks obtained by him/her at the re-examination in that subject. This will be his/ her final chance. In case, a student fails to obtain a minimum of 50% of aggregate marks out of the total marks for each semester even after the said re-examination, such a student will have to seek readmission for the entire year in the next academic year and re-do all the courses, that is both ICA and TEE.

If a student has failed under any head in any subject (i.e. 'Internal Continuous Assessment' or 'Semester-End Examination' or 'aggregate'), he/ she shall be deemed to have failed in that subject.

A student who remains absent at semester-end examination/s or re-examination/s due to any reason in any subject shall be awarded 'Absent remark' in the subject/s in which he/ she has remained absent. All such students will be required to appear at the re-examination of the said subject which will be conducted immediately after the declaration of the results of each semester end examination. All students who fail to pass any subject even after the said re-examination will be required to take re-admission for the entire year in the next academic year and re-do all the courses, that is both ICA and TEE.

In order to receive the degree, the student will have to pass in all the examinations of all the subjects of all the years and also fulfill the criterion of securing 50% of the aggregate of marks for all semesters.

**3.3(a) Grace Marks Rule only for B.Arch. & B.A. (Honours) Interior Environment and Design Programme
Following scheme of grace marks is applicable:**

A candidate failing in one or more subjects will be given grace marks up to 2 percent of the marks on the aggregate marks of the subjects in which he/she has appeared, subject to maximum of 6 marks overall and in individual subject not more than 3% of maximum marks allotted to the subject.

The subject/s in which grace marks will be given will be based on the data of the examination of the semester. The decision of the University in this matter will be final.

Alternatively, not more than 5 or 10 marks respectively per subject would be awarded, if following conditions are fulfilled:

Candidate should have appeared in all the subjects taken together for the respective semester.

Candidate should have an aggregate percentage of marks at the examination exceeding the minimum percentage required for passing by at least 5 percent or 10 percent marks respectively.

Candidate should not have failed in not more than one head/subject of passing by not more than 5 or 10 marks respectively.

Grades: Objective system of assigning the Grades to each subject would be based on relative performance of students in the Division/ batch. The relative grading system will be followed for the same. Balwant Sheth School of Architecture of NMIMS follows the following 'letter grades' and corresponding 'grade points' system:

Grade	Grade Point
A+	4.00
A	3.75
A-	3.50
B+	3.25
B	3.00
B-	2.75
C+	2.50
C	2.25
C-	2.00
F	0.00

Method of calculation of letter grades and GPA/ CGPA:

For the calculation of grades for each course / subject, following guidelines are observed:

Highest marks scored by student/s for course / subject will be taken into account for the batch/ group (in case of electives).

Difference between the maximum marks and pass marks would be calculated.

The said difference will be equally divided into slabs of nine letter grades (i.e. A+, A, and A-, B+, B and B-and C+, C and C-).

Grading will be done on the basis of marks obtained by a student in each course / subject which will be fitted into the above slabs of letter grades.

'F' grade will be assigned to students:

who have obtained less than 50% marks out of the total marks for each semester

.who have obtained less than 45% marks out of the maximum marks allocated to the respective subject for the term end examination.

who have obtained less than 45% marks out of the maximum marks allocated to the respective subject for the internal continuous assessment.

Who have obtained less than 45% marks in aggregate allocated to the respective subject.

Calculation of GPA (Grade Point Average):

Grade Point Average for a term will be computed by dividing, the sum of product of grade point of each course / module and credit value assigned, to each respective course by the sum of credits assigned to all the courses / modules for the related term.

$$\text{GPA} = \frac{\sum \text{CG}}{\sum \text{C}}$$

Calculation of CGPA (Cumulative Grade Point Average):

Cumulative Grade Point Average upto and including a term will be computed by dividing the sum of product of grade point of each course / module and credit value assigned to each respective course by the sum of credits assigned to all the courses / modules up to and including the related term.

Here: C = Credit value assigned to a course / module

G = Grade point value assigned to a student for course / module corresponding to the Letter grade (refer table given)

GPA = Grade Point Average shall be calculated for individual term.

CGPA = Cumulative Grade Point Average shall be calculated up to and including each term till date.

Duration and Stages of the Bachelor of Architecture (B. Arch.) Programme:

The Bachelor of Architecture programme shall be of minimum duration of 5 academic years i.e. 10 semesters. The course should be completed within a period of maximum 8 years from the date of admission to the programme failing which the student will be debarred from the Bachelor of Architecture course.

Duration and Stage of the B.A. (Honours) Interior Environment and Design

The B.A. (Honours) Interior Environment and Design programme shall be of minimum duration of 3 academic years. i.e. 6 semesters. The course should be completed within a period of maximum 5 years from the date of admission to the programme failing which the student will be debarred from the B.A. (Honours) Interior Environment and Design course.

Duration and Stage of the Master of Architecture

Master of Architecture programme shall be of minimum duration of 2 academic years. i.e. 4 semesters. The course should be completed within a period of maximum 4 years from the date of admission to the programme failing which the student will be debarred from the Master of Architecture.

Non-completion of assignments for Internal Continuous Assessment:

A student shall be permitted to appear for the Semester-end examination provided he/she has submitted all the projects/assignments etc. required for internal assessment of that subject within the stipulated time and has passed the Internal Continuous Assessment according to the passing criteria as stated above. In case, he/she fails to submit the same before the stipulated time, and he/she fails in the Internal Continuous Assessment, he/she will not be allowed to appear for the Semester-end examination and will be declared failed. The term of such student will, therefore, not be granted and he/she will then have to seek readmission in that year or quit the programme.

Note: The above rules of Passing Standards will be applicable to all the Programmes, Years, and Batches of B.Arch. M.Arch. & B.A.(Hons.)IED of Balwant Sheth School of Architecture and Centre of Interior Environment and Design.

Important: Formats of all kind of application forms related to examination can be directly downloaded from the link mentioned below. However, few important forms have been annexed to this book, in addition.
